## ABSTRACT

There is a network of many layers of waves, made of electric current, in our brain. That is called mind. Our mind circulates electric current to our each and every cell. There is a bone of the shape of our full body image, from head to toe, nearby our heart. This bone is surrounded by electric current circulated by our mind. Laymen call this bone as Soul bone. We can contact Aliens through this process.

KEYWORDS: Mind, Nature, Brain, Four Forces, Earthquakes, Space Junk, Asteroids, Electric Current, Computer
