

THE FEATURES OF LAYOUT IN ENGLISH AND ARABIC LEGAL TEXTS

FADL ALLAH ISMAIL ALI HAMD

Imam Mohammed Bin Saud Islamic University, College of Languages and Translation, Riyadh, Saudi Arabia

ABSTRACT

In this paper I shall attempt to provide a linguistic comparison between Arabic and English legal texts layout. In the first part I shall deal with the macro-structure of these texts, pointing out similarities and differences, while in the second part the aim will be to identify more language specific matters.

KEYWORDS: Arabic Translation, English Text, Synatax, Philology, Gotesburge
