

AIR POLLUTION IN VISAKHAPATNAM - AN OVERVIEW

DARAPU SRIKANTH SATISH KUMAR

Assistant Professor, Department of Civil Engineering, GIT, GITAM University, Visakhapatnam, Andhra Pradesh, India

ABSTRACT

The study of air pollution causes, sources, pollutants, adverse effects on environment, precautionary measures, and mitigation measures can all be comprehensively studied customized air pollution modeling software and productive inferences can be drawn from the results which will again become inputs for the model. Thus we have refined results. Careful modeling of air pollution by experts is very important especially in the urban areas because it has a huge impact on the sustainable development and ecological balance. In this paper air pollution growing scenario of Visakhapatnam and mitigation measures to be taken are discussed.

KEYWORDS: Air Pollution, Ambient Air Quality, Mitigation Measures, Visakhapatnam
