

PEDAGOGY OF SOCIAL SCIENCE BY CONSTRUCTIVE APPROACH

Afshan Anees

Assistant Professor, Al Barkaat Institute of Education, Aligarh, India

ABSTRACT

The method by which teachers teach, in theory and in practice is termed as pedagogy. . it also refers to the study of different teaching approaches to make their teaching learning process effective . Pedagogy helps students to build on prior learning, meaningful classroom relationships must exist. Pedagogical approaches could be divided into four categories: behaviourism, constructivism, social constructivism, and liberationist. Constructivist approach to learning encourage hypercritical thought and creates learners who are full of enthusiastic, energetic motivated and independent. In the full length paper highlights the meaning and concept of pedagogy of learning, also categories the pedagogical approaches and explain in details the constructive approaches to teach social sciences

KEY WORDS: *Pedagogy, Pedagogy Approaches, Constructivist Approach*
